

To Whom It May Concern:

My interior design projects with Jacqueline Hosford have been a source of great satisfaction. Jacqueline designed a blissful master bedroom for my husband and myself. From the vast amount of storage worked into the design to the beautiful fabrics to Jacqueline's ability to work a much loved headboard into an entirely new design, Jacqueline's understanding of our desire for a tranquil retreat translated into a wonderful space for us. I also retained Jacqueline to design a home office for me out of an underutilized spare bedroom. Jacqueline carved an ingenious office space out of a small alcove, featuring custom cabinetry integrated to work with a stand alone pine table that Jacqueline also designed. In this room Jacqueline indulged my love of the color purple by encouraging me to "be brave" and purchase a beautiful purple velvet sofa which she paired with a stand out rug with gorgeous bright colors. I look forward to spending time in this space -- which translates to hours every day.

Jacqueline is an excellent listener and she successfully melds her professional talents with those listening skills to achieve results which are remarkably tasteful and yet do not appear to be overly "done". She creates livable, beautiful spaces.

A handwritten signature in black ink, appearing to read 'Melissa Zelen Neier'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.
